Detailed Action

Drawings Objection

The drawings are objected to because:

(1) In Fig.1, reference numeral "112" should read --113-- (note page 1 of the specification).

(2) In Fig.2, reference numeral "21" should read --22-- (note page 4 of the specification).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will

be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claims Objections

Claims 1-4 are objected to because of the following informalities:

(1) In claim 1, lines 18-19, "the locating legs of the blade" is incorrect. The phrase should read --the locating legs of the main body--.

(2) In claim 2, line 3, "user" should read --a user--.

Appropriate correction is required.

Indication of Allowable Subject Matter

Claims 1-4 are objected to but would be allowable if amended to overcome the objections as set forth.
